THE FRIENDS OF HU-FRIEDY PROGRAM LAUNCHES A NEW CONTINUING EDUCATION COURSE: Stem Cells: Emerging Medical and Dental Therapies and the Dental Professional

CHICAGO, IL – Hu-Friedy's online dental hygiene community, **Friends of Hu-Friedy** (www.friendsofhufriedy.com) is designed exclusively for RDHs, dental hygiene students and faculty. The program, which offers professional support for its members in various ways, now includes complimentary CE courses. The membership program's CE catalog currently offers multiple courses with the newest addition titled: *Stem Cells: Emerging Medical and Dental Therapies and the Dental Professional*. As a special introductory offer, *Stem Cells: Emerging Medical and Dental Therapies and the Dental Professional* will be complimentary to all members (no Hu-Points needed to redeem for credit!) now through October 24th, 2008!

The 2 CEU course was developed in collaboration with Dr. Gregory Chotkowski, DMD, president of StemSave, Inc. The course centers on how the dental professional will play an important role in both the recovery and the future use of stem cells in Dental and Medical regenerative and personalized therapies.

Dr. Chotkowski previously practiced as a Board-Certified Oral and Maxillofacial Surgeon in New York City. He has authored several authoritative articles on maxillofacial trauma and reconstruction and has lectured both nationally and internationally. In accordance with its mission, StemSave partners with Dental Professionals to enable them to provide their patients with the opportunity to cryopreserve their own valuable stem cells for future regenerative therapies. As the parent of a son afflicted with an, as yet, incurable form of Muscular Dystrophy, he has a profound understanding of stem cells and a passion for the promise of regenerative medical therapies.

Friends of Hu-Friedy is proud to offer its members free continuing education. In exchange for their AGD Pace Approved Credit Certificate, RDH member types are asked to redeem 50 Hu-Points (earned through program participation). Friends of Hu-Friedy will be launching several new courses in the coming months, including *Diabetes – An Epidemic of Epic Proportions*, slated to launch November 1st, 2008 in accordance with National Diabetes Awareness Month.

To become a member of Friends of Hu-Friedy or for more information on the Hu-Points Program visit www.friendsofhufriedy.com , call 1-800-Hu-Friedy or contact your authorized Hu-Friedy representative.
